۱۳	متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. Children are taught to respect elders by their parents at very young ages. Throughout school and university, they are reminded of them while their personalities develop. But still, we often forget to respect our elders. Respecting elders should come from within. Respecting elders come under good habits and manners. Everyone welcomes a well-behaved person. As we all know, history repeats itself. If we will respect our elders today, we will get respect when we grow old. There are many ways to show respect to elders. For example, they feel happy and honored when we include them in the decision making of the family. They are more experienced than us and they also have walked the same path before us. So, we should always ask for their advice. Another way is listening to them and following their customs, which they have lived up to. We should also repeatedly visit them and invite them to our house, too. We should often sit and eat with them. All this will help us to recognize and appreciate our elders. Always remember that people are always judged by their actions and each word or action has a reaction. So, if you want to succeed and be happy in life, start respecting elders by being polite. Finally, I would like to say, our elders are really worthy and we should respect them. ❖ Choose the best answer 41) The word "repeatedly" in the second line of paragraph 3 means -----. a) many ways b) many times c) many customs d) many actions 42) What does "them" in the first line of paragraph 3 refer to? a) manners b) habits c) elders d) families ❖ Answer the following questions. 43) When do elders feel honored? 44) Why should we ask elders for their advice? 45) According to the passage, what does the term "history repeats itself" mean?

۳	۱۴ متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. Writing, or orthography, is often seen as the last language learning skill in learning English as a foreign language. The spelling of the words can be very different from their pronunciations. The English alphabet may be completely different from the Persian language alphabet, which makes the learners learn a new learning task called alphabet learning. It can be helpful to write by using the English language whenever you can and get writing practice. For example, you could write lists of things you need to do or buy. By doing this, you will find new words, and by writing these things down, you will learn new spellings. Write e-mails and notes in English whenever you can. Another way to use your writing skills is to write in a diary or journal in English. You can make notes on your day, including what you did, where you went, what you enjoyed or learned, how you felt, and who and why you talked to someone. By writing about your day in a journal, you will practice the past tense in English and develop your writing skills. ❖ True/False 46) The spellings and pronunciations of all words are the same. a) True b) False 47) Writing about your day in a journal improves your writing skills. a) True b) False ❖ Choose the best answer. 48) By writing practice, you can improve your -----. a) listening b) reading c) speaking d) spelling 49) What does "this" in the second line of paragraph 2 refer to-----. a) finding new words b) writing lists of things you need to do or buy c) learning new spellings d) learning English alphabet ❖ Answer the question. 50) How can you improve your writing skills and practice the past tense?						۱۴
	۱۵ متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. Although you might not like ants when they get in your food or get into your home, ants are interesting tiny insects and do help the environment. They are advanced social insects, because they live in highly organized large colonies where each group has complicated important relationships with many others. The queen ant has wings and its primary function is to lay eggs. The other female ants are called workers. They build the anthill, find food and even act as soldiers. The soldier ants protect the queen, defend the colony and attack enemy colonies in search of food. Ants don't have ears. Ants hear by feeling vibrations in the ground through their feet. They can carry things 20 times heavier than their own body weight. The muscle arrangement in an ant gives it great strength allowing it to carry heavy things toward the entry point of the anthill. Their colonies can contain millions of ants. When a queen ant dies, the entire colony usually dies within a few months. Although many people may suppose that ants aren't dangerous, scientists have compiled a list of them which can hurt. For instance, there is a kind of ant in Australia that has a bite and can kill a person. ❖ True / False 51) All ants are dangerous for human. a) True b) False 52) Ants are social insects and do help the environment. a) True b) False ❖ Choose the best answer 53) Which of the following is NOT true about soldier ants? a) They take care of the queen. b) They help to defend the colony. c) They find food for the colony. d) They are very strong and big. 54) According to the passage, the colony may continue to exist for a few months -----. a) when they obey the queen ant b) when they carry heavy things c) when they lose the queen ant d) when attack enemy colonies ❖ Answer the following question. 55) How do ants hear?						۱۵

4	متن زیر را بخوانید و به سؤالات داده شده در هر قسمت پاسخ دهید. Energy has become a serious issue in recent century and many solutions have been offered by some organizations. They may ask people to consider saving energy. To achieve this purpose, we need to make small changes in our lifestyles. We should do everything efficiently, with no waste of time or energy. It can be possible by turning off lights when they are not needed, or unplugging TVs and computers when not using them. Managing inside temperature can also help. Therefore, we should adjust the temperature in our buildings to use less energy for heating and cooling. Another important factor for householders is knowing the time when the energy is at its peak when the energy consumption is generally high. For example, in summer, when all cooling systems are in use, adding a washing machine to the cycle results in system failure or an unexpected high electricity bill. Another way to save energy is replacing devices and windows with energy efficient ones. To keep the heat inside during cold seasons, it's advisable to check our homes for any openings, and add insulation or protection materials. These simple things can protect the environment and save money on our bills. True / False 45) It is not easy to change our daily lives to save energy. True ☐ False ☐ 46) Saving energy meets the economic and environmental needs. True ☐ False ☐ Choose the best answer 47) The above passage provides answer to all the following questions <u>Except</u> a. What does 'efficiently' mean? b. When should we turn off lights? c. Why is it necessary to check our home temperature? d. How can we measure the inside temperature?	N

4	متن زیر را بخوانید و به سؤالات داده شده در هر قسمت پاسخ دهید. When reading, you may find some words that are often written in capital letters, and seem to be different from other words in the text. Sometimes, these words sound difficult to pronounce. Abbreviations and acronyms are two examples of such words. They are short forms of words and phrases. An abbreviation is a shortened form of a word used in place of the full word (e.g., Adj for Adjective). An acronym is a word formed from the first letters of each of the words in a phrase or a name (e.g., IRIB for Islamic Republic of Iran Broadcasting). They help to make writing easier to read and understand. They also help us to write within a specific word limit, and avoid repeating the same words over and over. Sometimes, authors create new acronyms when <u>they</u> invent a new technique and want to make it sound cool. This helps people remember the technique more easily. However, we should use these short forms carefully. Using too many of them can make the text harder to read, especially for people who do not know what they mean. It can confuse readers and make them lose their interest. To avoid wasting time reading through pages to find the definition of an unfamiliar word, we should use such forms sparingly and only when they're really necessary. True / False 51) Abbreviations and acronyms are formed in different ways. True ☐ False ☐ 52) Using acronyms makes a text easy for both writers and readers. True ☐ False ☐ Choose the best answer 53) The underlined word 'they' in the first paragraph refers to a. readers b. acronyms c. authors d. words ☐ 54) According to the above explanation, which one is false? a. ۱۴	متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید. Note-taking is a necessary part of the language learning. It helps students learn, keep, and remember information. Taking notes make them think differently about the subject; it requires the learners to look at things differently. It also helps them pay attention during the class because they are actively listening and experiencing in the classroom. Not only do the students meet their needs by taking good notes in English classes, but everyone should find note-taking as the best way to work with written and spoken texts. Taking notes let learners check interesting points from what they are researching, reading or listening to. Writing some parts in their own words, also called note-making, makes everything clear for the notetakers when looking back at the text. It is a much better learning technique than just depending on your own memory. Remember that word-for-word note-taking can hurt systematic thinking as it takes away the time of explaining ideas through examples and pictures by just writing down facts without context. It is why Isaac Newton said that he did great things just because he was sitting in the great men's classes and taking notes. ❖ True / False 45) Note-taking makes learners different in thinking. a) True b) False 46) You should write in your own words when taking notes. a) True b) False ❖ Choose the best answer. 47) Which of the following is NOT true about note-taking? a) It helps learners check interesting points b) It is used for written and spoken texts c) It helps learners pay attention during class d) It depends on your memory 48) According to the passage, word-for-word note-taking can hurt systematic thinking because -----. a) it explains ideas through pictures b) it takes away the time of people c) it is writing down facts without context d) it depends on active listening ❖ Answer the following questions. 49) Why did Isaac Newton do great things? 50) Why does note-taking help students pay attention during the class?	۴
۱۵	متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید. Being helpful is what we know as kindness. Kind people improve the lives of those around them and generally enjoy better health. Studies show that acts of kindness can have positive side effects. It can increase good senses, improve health conditions and feelings. It increases relationships with others. Acts of kindness can make the world a happier place for everyone. Kind people can boost their feelings of control, happiness and responsibility. They may also inspire others to repeat the good acts they have experienced in a more positive society. Most of us think of charities as trying to help others, but how do we live without helping others? How do we become donating members of society? Donating food is the best way to help others because it is essential for human beings. Not only do charities benefit from the donations, but you also gain a lot from them. Thousands of people donate to charity to support the people in need and meet their moral needs. ❖ True/False 51) Donators help others who enjoy better health. a) True b) False 52) The world will be a happier place when we are kind. a) True b) False ❖ Choose the best answer. 53) Kind people cannot improve the feeling of -----. a) happiness b) responsibility c) control d) donation 54) What does "they" in the fifth line refer to -----. a) human beings b) happier people c) kind people d) others ❖ Answer the following questions. 55) What is the best way to help others? Why? 56) Why do people donate to charity?	۴

۴	متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. A dictionary is a book which explains the meanings of words and expressions. You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin 'dictio' ('saying'). There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words. Dictionaries which explain what words mean give a clear 'definition' of <u>them</u>. A good dictionary also gives more information about words. For instance, it explains how they are pronounced. Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are also dictionaries which translate words into other languages. When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning. True/False 45. Since dictionaries put words in alphabetical order, you can find them easily. a) True b) False 46. The word 'dictionary' comes from the French 'dictio'. a) True b) False	۱۵

۱۳	Reading متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید. Many countries have used the energy in moving water for thousands of years. And today, it's still a powerful resource that can generate clean, renewable, and cheap electricity. They produce energy from running water and convert it to electricity. The power that is produced as a result of falling or running water is called "hydroelectric power" or "hydropower". Turbines and generators convert this power into electricity. Today, about 19% of all our electricity is generated from hydropower, making it one of the largest sources of renewable power. So what makes hydropower renewable? It's simple: water. Water is converted into clouds and recycles back to earth as rain. This process is called "The Water Cycle". The water cycle is continuously recharging and can be used to produce electricity along the way. True/False 36. According to the passage, the energy in moving water can generate clean, renewable, and cheap electricity. a)True b) False	۳

۱۴		متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید. Note-taking is a necessary part of the language learning. It helps students learn, keep, and remember information. Taking notes make them think differently about the subject; it requires the learners to look at things differently. It also helps them pay attention during the class because they are actively listening and experiencing in the classroom. Not only do the students meet their needs by taking good notes in English classes, but everyone should find note-taking as the best way to work with written and spoken texts. Taking notes let learners check interesting points from what they are researching, reading or listening to. Writing some parts in their own words, also called note-making, makes everything clear for the notetakers when looking back at the text. It is a much better learning technique than just depending on your own memory. Remember that word-for-word note-taking can hurt systematic thinking as it takes away the time of explaining ideas through examples and pictures by just writing down facts without context. It is why Isaac Newton said that he did great things just because he was sitting in the great men's classes and taking notes. ❖ True / False 45) Note-taking makes learners different in thinking. a) True b) False 46) You should write in your own words when taking notes. a) True b) False ❖ Choose the best answer. 47) Which of the following is NOT true about note-taking? a) It helps learners check interesting points b) It is used for written and spoken texts c) It helps learners pay attention during class d) It depends on your memory 48) According to the passage, word-for-word note-taking can hurt systematic thinking because -----. a) it explains ideas through pictures b) it takes away the time of people c) it is writing down facts without context d) it depends on active listening ❖ Answer the following questions. 49) Why did Isaac Newton do great things? 50) Why does note-taking help students pay attention during the class?					
۱۵		متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید. Being helpful is what we know as kindness. Kind people improve the lives of those around them and generally enjoy better health. Studies show that acts of kindness can have positive side effects. It can increase good senses, improve health conditions and feelings. It increases relationships with others. Acts of kindness can make the world a happier place for everyone. Kind people can boost their feelings of control, happiness and responsibility. They may also inspire others to repeat the good acts they have experienced in a more positive society. Most of us think of charities as trying to help others, but how do we live without helping others? How do we become donating members of society? Donating food is the best way to help others because it is essential for human beings. Not only do charities benefit from the donations, but you also gain a lot from them. Thousands of people donate to charity to support the people in need and meet their moral needs. ❖ True/False 51) Donators help others who enjoy better health. a) True b) False 52) The world will be a happier place when we are kind. a) True b) False ❖ Choose the best answer. 53) Kind people cannot improve the feeling of -----. a) happiness b) responsibility c) control d) donation 54) What does "they" in the fifth line refer to -----. a) human beings b) happier people c) kind people d) others ❖ Answer the following questions. 55) What is the best way to help others? Why? 56) Why do people donate to charity?

4		متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید. Energy has become a serious issue in recent century and many solutions have been offered by some organizations. They may ask people to consider saving energy. To achieve this purpose, we need to make small changes in our lifestyles. We should do everything efficiently, with no waste of time or energy. It can be possible by turning off lights when they are not needed, or unplugging TVs and computers when not using them. Managing inside temperature can also help. Therefore, we should adjust the temperature in our buildings to use less energy for heating and cooling. Another important factor for householders is knowing the time when the energy is at its peak – when the energy consumption is generally high. For example, in summer, when all cooling systems are in use, adding a washing machine to the cycle results in system failure or an unexpected high electricity bill. Another way to save energy is replacing devices and windows with energy efficient ones. To keep the heat inside during cold seasons, it's advisable to check our homes for any openings, and add insulation or protection materials. These simple things can protect the environment and save money on our bills. ❖ True/False 45) It is not easy to change our daily lives to save energy. a. True b. False 46) Saving energy meets the economic and environmental needs. a. True b. False ❖ Choose the best answer. 47) The above passage provides answer to all the following questions Except ----- . a. What does 'efficiently' mean? b. When should we turn off lights? c. Why is it necessary to check our home temperature? d. How can we measure the inside temperature? 48) The author recommends ----- as one of the ways to save energy. a. using devices which consume less energy b. taking the protection materials away c. using washing machines during the peak time d. making more openings and windows in the walls ❖ Answer the following questions. 49) How does the passage define 'peak time'? 50) What is the author's suggestion about replacing the devices and windows? 4		متن زیر را بخوانید و به سوالات داده شده در هر قسمت پاسخ دهید. When reading, you may find some words that are often written in capital letters, and seem to be different from other words in the text. Sometimes, these words sound difficult to pronounce. Abbreviations and acronyms are two examples of such words. They are short forms of words and phrases. An abbreviation is a shortened form of a word used in place of the full word (e.g., Adj for Adjective). An acronym is a word formed from the first letters of each of the words in a phrase or a name (e.g., IRIB for Islamic Republic of Iran Broadcasting). They help to make writing easier to read and understand. They also help us to write within a specific word limit, and avoid repeating the same words over and over. Sometimes, authors create new acronyms when they invent a new technique and want to make it sound cool. This helps people remember the technique more easily. However, we should use these short forms carefully. Using too many of them can make the text harder to read, especially for people who do not know what they mean. It can confuse readers and make them lose their interest. To avoid wasting time reading through pages to find the definition of an unfamiliar word, we should use such forms sparingly and only when they're really necessary.								O
